Dear Hana,

Hi? I hope you are doing fine. As for me am doing fine hence breathing with the help of our almighty father God. The term has been fair to me and also to my family members. What about you? Are your family members doing fine? If they are thanks be to God the creator of the universe.

The main reason of writing this letter is to inform you on how am doing and how my family is. We have closed the school just for a short time. My studying has been fair and at least am trying to improve on certain subjects.

The sciences are a bit difficult to me but am promising to do better next term. I am assuring you that next term I will have a better grade I mean it and I will not break the promise Mum.

The next thing is that I would like to have more photographs of you and your family members. How many are you in your family? As for me we are ten in total, we were eleven but God took my grandmother and grandfather.

I am glad that you have that heart of helping people, each and every time I do pray for you and your family. Please remember to stay safe each time. Mum continue with the merciful heart that you have and God will bless you and also will give you promotion in everything you try doing right to him. May God bless you My Mum Hana.

Your's Faithful
Gulmoango Josephine
