

Dear Mum Hana,

Hoping that you are fine together with your fellow group members. I received the presents and they were so marvelous, they really made my day look smart.

Mum we have closed schools and I am really trying to work hard to make my future look smart. This term is a serious term for me it is time to work hard because it's time for revision in our school. We have already finished the syllabus but only a few are remaining. Mum I am promising you that, am going to work hard in Maths. This round we have improved in points and am promising to add more points that can take me to a given course or University.

I read the letter, Okey in Kenya the weather is rainy. When the weather is like this we are planting maize and beans. How is the weather now?

You asked how we celebrate Christmas this is how we celebrate. On 24th December people all over Kenya are really finding good clothes which they will wear on 25th. Before the two dates, we go to the church and we are given Christmas Chorals like "Joy to the World" to practise and all along with a verse from the bible to recite and act. After that the winners are given presents.

Pass my greetings to the children and your group members.
Your's daughter,
Gamongo Josephine.
